DETAILED ACTION

Current Status of 10 / 565105

1. Claims 1-5 are currently pending in the application and are being examined in the current office action.

Information Disclosure Statement

2. The information disclosure statement filed 1/19/2006 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Saji et al. (US5532372, issued July 2, 1996, cited in IDS). Saji et al. disclose example 1(d) in column 32, which anticipates claims 1-4. In example 1(d), compound 101 (shown at the bottom of column 30) is dissolved in acetone and 13.7 % isopropanol solution of hydrogen chloride. Claims 2-3 are anticipated because acetone, a ketone solvent, is used. Claim 4 is anticipated because 13.7 % isopropanol solution of hydrogen chloride is used.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1624

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the steps to form the imide hydrochloride. No steps are recited in the claim to give guidance on how to form the salt.

Allowable Subject Matter

7. No claims are allowed.
